My Family at Work

My family has different jobs. My father is a driver. He works for a taxi **company** and drives people around the city. My mother is a nurse. She works at a big hospital and helps sick people.

My uncle is an engineer. He builds and fixes bridges and roads. My aunt is an accountant, so she works with numbers in an office.

I don't know my job yet. I like helping people, so maybe I want to be a doctor.

WORD HELP

company — компания

bridge — мост

Read it aloud two times. Then close the page and tell your partner three things you remember.
