The Science Fair

Day 1 · 20 new words in blue · 4000 EEW 1, Unit 8

What to do: Read it aloud together, then answer the questions. The blue words are this week's 20 words.

Our class is getting ready for the science fair. The **purpose** of our project is simple: to show how the Sun and the Moon move. Our teacher always **encourages** us: "Every **single** person has a job!" It is Friday, and the fair is tomorrow.

Bekzod has already **arranged** the tables. Nodira has just **hung** a **huge** poster on the wall. It has a **pattern** of stars and planets, and it shows the **contrast** between day and night. Aziz has made a model of the Sun and the Moon. It is **necessary** to **balance** the Moon on a thin stick, and that **requires** a lot of patience.

"Have you finished your **theory** page yet?" the teacher asks me. "Not yet!" I say. Suddenly my little brother runs in, **grabs** my page and **tears** it! But the class helps me, and I write it again. Then we **release** twenty blue balloons for the opening. The next day, many parents **attend** the fair. Their faces are **familiar**: they are our families! The judges **propose** a prize for our class, and our teacher **accepts** it with a big smile. What a **success**!

Answer

1 What is the purpose of the project? · 2 What has Nodira just done? · 3 What did the little brother do? · 4 Who attended the fair?

New words

What to do: Say each word, read the example, then copy the 20 words into the copybook: word · Russian · own example.
