IELTS Turbo · Week 10 · Saturday · Writing and Speaking

Cities, transport and housing

1. Read the article once for meaning. 2. Read it again and look at the **highlighted new words** and the **blue phrases** in context. 3. Study the tables. 4. Use at least 5 new words in speaking or writing this week.

Article: Cities on the move: transport, housing and growth (186 words)

More than half of humanity now lives in cities, and **urbanization** shows no sign of slowing. The pressure is easy to see. Every morning, millions of **commuter** passengers crowd into trains at **rush hour**, while on the roads **congestion** wastes time and fuel. Many cities respond by improving **public transport**: new tram lines, safer **cycle lane** networks and wider **pedestrian** zones. Others introduce a **congestion charge** or raise **road tax** to discourage driving, and encourage **carpooling** instead.

Housing is the second great challenge. **Affordable** homes are scarce, and a young **tenant** may spend half their income on rent, while a **mortgage** is out of reach for many. In poorer regions, rapid growth produces huge **slum** districts, **overcrowded** and short of clean water. Wealthier cities fight **sprawl** by building upwards: a modern **skyscraper** can house thousands of people on a small plot, and a well-planned **suburb** can ease pressure on the centre.

Good planning also means providing **public amenities** such as parks and libraries, and **breathing new life into** neglected districts through **regeneration**. The cities that succeed will be those that **plan ahead** rather than **react to** each crisis.

Useful phrases from the article

Phrase	Meaning
breathing new life into	renewing
plan ahead	think and prepare early
react to	respond to after

The 20 new words

Word		Meaning	Example
urbanization	n	the growth of cities	*Urbanization puts pressure on housing.*
congestion	n	too much traffic	*Congestion costs the economy millions.*
public transport	n	buses, trains and trams for everyone	*Cheap public transport reduces car use.*

Topic kit: what to know about this topic

Writing Task 2 questions you may meet

1. Traffic congestion is a growing problem in cities. What are the causes and what solutions can you suggest?
2. Some people believe cities should limit private cars. To what extent do you agree or disagree?
3. More people are moving to cities. What are the advantages and disadvantages?
4. Housing is too expensive for young people. What can be done?

Ideas you can use in essays and in speaking

- **For / good:** Better public transport and cycle lanes reduce the number of cars on the road.
- **Against / bad:** Congestion charges may hurt low-income workers who have no alternative.
- **For / good:** Cities offer jobs, services and culture that rural areas lack.
- **Against / bad:** Rapid urban growth creates slums, pollution and overcrowding.
- **For / good:** Building affordable housing and regenerating old districts eases the shortage.
- **Against / bad:** Rent rises and mortgages stay out of reach if wages do not grow.

Speaking

Part 1

- Do you live in a house or an apartment?
- What transport do you use most?
- Do you like your neighborhood?
- Is traffic bad where you live?
- Would you like to live in another city?

Part 3

- How can cities become less crowded?
- Should public transport be free?
- Will people live in big cities in the future?
- Are skyscrapers a good solution to housing problems?

Part 2 cue card. Describe a city you would like to visit. You should say: where it is, what you know about it, what you would do there, and explain why you want to go.

Answers

1. Rush hour (rush hour)
2. public transport (public transport)
3. Overcrowded (overcrowded)
4. slums (slum)
5. Congestion (congestion)
6. Carpooling (carpooling)
7. Affordable (affordable)
8. sprawl (sprawl)
