The rule: The future with will

Statement: will + the base verb. People will travel in super-fast planes. = They'll travel. (I'll · you'll · he'll · she'll · it'll · we'll · they'll)
No: won't (= will not) + base verb: There won't be any more long plane journeys.
Question: Will + subject + base verb? Will they go back to Australia? Yes, they will. / No, they won't.
Time words for the future: tomorrow · soon · later · this evening · next week · on Monday · in two weeks' time · in a month's time. They go at the end (or at the start) of the sentence: We'll go on vacation in two weeks' time.
Use will for predictions (what I think will happen): I think robots will help us.

Watch out (we often say...)

~~He will not to come.~~	**He won't come.**
