## 1 · Reported speech Class Book p. 70

**THE BIG IDEA**

We use reported speech to tell what somebody else said. The words change: the present becomes the past.

Косвенная речь: пересказываем чужие слова. Время «сдвигается» назад: настоящее → прошедшее.

### How to make the sentence

1. Write who spoke and said: He said ...
2. Take the speaker's words: "I need some bandages."
3. Change the verb to the past: need → needed; are making → were making; is → was; can → could; will → would.
4. Change the person: I → he / she: He said he needed some bandages. No quotation marks.

### The pattern

| WHICH | PATTERN | EXAMPLE | РУССКИЙ |
|---|---|---|---|
| **Direct → reported** | **"I need ..." → said (that) he needed ...** | **"I need some bandages." → He said he needed some bandages.** | «Мне нужны бинты» → Он сказал, что ему нужны бинты. |
| **is / am / are** | → was / were | **"Julie is my best friend." → Karen said Julie was her best friend.** | is → was |
| **present continuous** | **am / is / are -ing → was / were -ing** | **"We're making sandwiches." → They said they were making sandwiches.** | are making → were making |
| **present simple** | verb → verb in the past | **"We want to stay at home." → They said they wanted to stay at home.** | want → wanted |
| **will / can** | will → would · can → could | **"I can swim." → She said she could swim.** | can → could |
| **that** | said that = said (that is optional) | **He said that he was ill. = He said he was ill.** | |

### Watch out! We often say...

| | |
|---|---|
| ~~He said me he was ill~~ | **He said he was ill (or: He told me he was ill)** |

| ~~He said "he needed help"~~ | **He said he needed help (no quotes)** |

# 2 · said / told + time words Class Book p. 71

**THE BIG IDEA**

Said — без «кому»: said (that). Told — всегда с «кому»: told me / us / him. Слова времени тоже меняются: tomorrow → the next day.

## How to make the sentence

1. Choose: said (no object) or told + me / us / him / her / them.
2. Back-shift the verb (present → past).
3. Change the time word: tomorrow → the next day · today → that day · now → then · tonight → that night.
4. Say it: She told us a doctor was coming to the school the next day.
