Grammar explained

Name _____

1 · may, might, could (possibility) Class Book p. 86

THE BIG IDEA

Use may, might and could to talk about things that are possible now or in the future. We are not sure.

May / might / could — «может быть», возможно (не уверены). Одинаково для всех лиц, после них — начальная форма.

How to make the sentence

1. Think: am I sure? No → may / might / could.
2. Write the person + may / might / could + the plain verb: I might need to do more work.
3. For no: may not / might not + plain verb. (Not could not: it means something different.)
4. Compare: will = sure · might = maybe.

The pattern

The pattern

WHICH	PATTERN	EXAMPLE	РУССКИЙ

Note → question	note · do / does / did	**training → Do you have to do a lot of training?**	
Answer	full sentence	**I run for three hours every day.**	Я бегаю по три часа в день.
