A Weekend in the Mountains

Last weekend my friends and I **hiked** in the mountains near Chimgan. We arrived on Saturday morning and **camped** next to a small river. The weather looked perfect, so we stayed outside all day.

In the afternoon we **explored** the forest and **photographed** the flowers. Aziz climbed a big rock and we all **cheered**. Dilya **arranged** a picnic and we **grilled** vegetables on a small fire.

In the evening we talked and listened to music. Late at night we watched the stars and laughed. The next morning we packed our bags and walked back to the road. I loved every minute and I want to return soon.

WORD HELP

- **hike** — ходить в поход
