_____

5 Read and write T (true) or F (false)

Read the text. Write T or F.

Nature has rules. If the sun heats the ocean, water evaporates and forms clouds. If the clouds get cold, they turn into rain. Plants use the rain: if they get enough water and light, they grow and produce oxygen. But if the air gets too hot, the ice at the poles melts and the sea level rises.

1. If the sun heats the ocean, water evaporates.

_____

2. Clouds turn into rain if they get cold.

_____

3. Plants produce carbon dioxide.

_____

4. Plants grow if they get water and light.
