HOW IT WORKS · 1

Zero conditional: If + present, present

If you heat water to 100°C, it boils. ✓

Если нагреть воду до 100°C, она кипит.

If plants don't get water, they die. ✓

Если растения не получают воды, они погибают.

If ice gets warm, it melts. ✓

Если лёд нагревается, он тает.

If + present simple, present simple: always true (facts, science)

If + present simple, present simple — всегда верные факты

if here means whenever: it is true every time

if здесь = всякий раз, когда

he / she / it + -s in both parts: If the ice melts, the sea level rises

-s в обеих частях для he / she / it

HOW IT WORKS · 2

Both orders

If you heat water,	it boils.
Plants die	if they don't get water.
If the ice melts,	the sea level rises.
Fish die	if the water is polluted.

If at the start → a comma: If you heat water, it boils.
If в начале — запятая

If in the middle → no comma: It boils if you heat it.
If в середине — без запятой

What happens if you heat ice?

If you heat ice, it melts.

Что будет, если нагреть лёд? Он растает.

What happens if plants don't get light?

If plants don't get light, they die.

Что будет, если растения не получат света? Они погибнут.

What happens if you mix red and blue?

If you mix red and blue, you get purple.

Что будет, если смешать красный и синий? Получится фиолетовый.

Ask: What happens if...?
Спрашиваем: What happens if...?

Answer with the present simple in both parts
Отвечаем в present simple

Use today's words: melt, evaporate, absorb, ecosystem, habitat

WATCH OUT

Four mistakes to avoid

If you will heat water, it boils. ✗
→ **If you heat water, it boils.** ✓
после if — present simple

If ice melt, the sea level rises. ✗
→ **If ice melts, the sea level rises.** ✓
ice = it → melts

If plants don't get water, they dying. ✗
→ **If plants don't get water, they die.** ✓
глагол без -ing

If you heat ice it melts. ✗
→ **If you heat ice, it melts.** ✓
запятая после if-части
