Listening 1 · exam practice

Day 1 · Listening · Topic: Science and experiments

What to do: Pause after each conversation. Do not show the answers until everybody has chosen.

Cambridge A2 Key (KET) · Part 1: 5 short conversations, each with three pictures
YouTube: **www.youtube.com/watch?v=kFZcCZIOR54**
"KET: sample test, listening part 01 (Van Quan)"
Play **Part 1 only** (the first 5 questions). Each conversation is played twice. The answers are shown in the video.

1 Before you listen: talk in pairs

1. What do scientists do in a laboratory? Which experiments do you know?
2. Which words can you say about noises and smells in English?
3. Which famous scientists do you know? What did they do?

2 Listen: choose A, B or C

Question 1 A B C

Question 2 A B C

Question 3 A B C

Question 4 A B C

Question 5 A B C

Circle your answer. Listen twice before you decide.

3 Check

1. Check your answers with the video. How many are right? ____ / 5
2. For each mistake, play that conversation again. Which word or number did you miss?

Listening 2 · BBC Learning English

Day 1 · Listening

What to do: Exercise 5 after the first listening, 6 after the second. Exercises 7 and 8 after the programme.

BBC Learning English · 6 Minute English · intermediate · about 6 minutes
"AI to reduce animal testing"
Open: **www.bbc.co.uk/learningenglish/english/features/6-minute-english_2024/ep-240718**
On that page: the audio, the transcript (not word for word) and a PDF.

4 Before you listen

1. Do you think it is right to test medicines on animals? Why or why not?
2. What do scientists do in a laboratory?

5 Listen once: the question of the programme

Which commonly used medicine is harmful for animals but safe for humans? a) antibiotics b) aspirin c) paracetamol

6 Listen again: true or false?

1. Animal testing means using living animals in scientific research. ☐ T ☐ F
2. Under British law, medicines must be tested on two different types of animals. ☐ T ☐ F
3. Animal rights campaigners say animal testing is cruel. ☐ T ☐ F
4. Christine Ro says that what is safe for an animal is always safe for a human. ☐ T ☐ F
5. AI might help to reduce the need for animal testing. ☐ T ☐ F

7 Match the words from the programme with their meanings

1 human guinea pigs	a) do a task that needs great skill and care
2 vice versa	b) a complete description with all the information
3 thread the needle	c) the opposite is also true
4 the whole picture	d) spend a lot of effort reading or doing something boring
5 wade through something	e) in addition to
6 on top of	f) the first people to have something new tested on them

Write: 1 __ 2 __ 3 __ 4 __ 5 __ 6 __

8 Discuss

1. Which is more important: new medicines or the safety of animals?
2. Could a computer (AI) do an experiment for us? What are the problems?
3. Which words from the article about science (experiment, laboratory, chemical) did you hear?

Answers · Day 1 listening

For the teacher

BBC. 5: The programme gives the answer at the end.

6: T · T · T · F · T

7: 1 f · 2 c · 3 a · 4 b · 5 d · 6 e

YouTube test: the answers are in the video, after the test.
