Unit 7 · The future with will

Name _____

THE BIG IDEA

Will + a base verb is the future for predictions: what we think or know will happen.

Will + начальная форма — будущее: что, как мы думаем, произойдёт.

How we build it

WHICH	PATTERN	EXAMPLE	РУССКИЙ
Yes	subject · will · base verb	**People will travel in rockets.**	Люди будут летать на ракетах.
Short form	I'll · you'll · he'll · we'll · they'll	**We'll see the stars.**	Мы увидим звёзды.
No	won't · base verb	**There won't be any long journeys.**	Не будет долгих поездок.
Question	Will · subject · base verb?	**Will they go back? Yes, they will.**	Они вернутся?
Time words	tomorrow · next week · soon · in two weeks' time	**In two weeks' time we'll be home.**	

When we use it

Predict: I think robots will help us.
Предположить.

Promise: I'll call you tomorrow.
Пообещать.

Ask about the future: Will it rain?
Спросить о будущем.

REMEMBER

tomorrow / next week / soon / in two weeks' time / in 100 years + I think ... → will + base verb.

RUSSIAN AND ENGLISH

In Russian the future is «буду + глагол» or one verb («поедем»). In English: WILL + the base verb. Not 'will goes', not 'will to go'.

Watch out! We often say...

~~They will goes to Mars.~~	**They will go to Mars.**
~~Will they to go?~~	**Will they go?**
~~He will not to come.~~	**He won't come.**
~~I think it will to rain.~~	**I think it will rain.**
